## **IMAGINE...YOUR BODY RUNNING AT PEAK PERFORMANCE!**

**Let us introduce you to the natural, science-based, no-gimmick solution  
you've been seeking ...**

### **REVITALIGHT**

Fatigue? Illness? Pesky weight issues? Isn't it time to take back your sense of wellbeing? Our passion is to help you awaken your body to unlimited wellness and vitality! The ReVitaLight™ body chemistry and microbiome rebalancing protocol offered by Awaken Unlimited is completely natural, laboratory-certified for purity and potency, and remarkably effective.

So what in the world is a microbiome? Simply put, our body hosts a vast army of microbes influencing our health or illness. Collectively, these crucial organisms living inside the human body are known as our microbiome. As leading experts in microbiome science, we combine cutting edge research with ancient wisdom to create a unique program that restores optimal health to a microbiome compromised by the effects of chronic stress, unhealthy diet, modern lifestyle choices, and unavoidable exposure to toxins in our environment.

With ReVitaLight, you will detoxify and rebalance your entire body and enjoy renewed vitality, rejuvenated immunity, healthy body composition, and peak wellness. Our clients experience outstanding results, unmatched by modern conventional medicine or gimmicky diet fads.

### **WHY IS REVITALIGHT SO SUCCESSFUL WHERE OTHERS FAIL?**

You are unique – so are we. No two humans are the same, so we offer a program tailored specifically for **you**, based on your unique makeup to achieve your wellness goals.

Did you know your body is contaminated by thousands of artificial chemicals in your food supply, drinking water, and environment? These modern chemicals damage your body and microbiome, requiring special assistance to reverse. For this reason, we use only professional quality pharmaceutical-grade natural supplements, independently tested for purity, and specially designed to achieve optimum wellness.

With our protocol, you give your body the time and space it needs to repair & rebalance. Humans were never designed to consume several meals a day, 7-days a week, continuously for a lifetime. Until recently, humans food supplies might be available one day, but non-existent another. In our modern culture, eating moderate to large quantities of food repeatedly means your body simply cannot produce enough energy to support digestion, while simultaneously making vital repairs and conducting routine maintenance.

In fact, about 40% of all the energy your body produces during a given day goes just to digest food – WOW, no wonder you're tired! The ReVitaLight protocol enables your body to shift metabolic gears. By minimizing digestion, your body redirects its energy production to detoxify and rebalance itself.

For thousands of years the human body has intuitively known how to heal itself. By giving your body the time and space to rebalance, you will realign body chemistry, supercharge your metabolism, make the ecological repairs required to balance your microbiome, remove imbedded toxins at the cellular level, and rebuild compromised or weakened tissues.

During the ReVitaLight™ cleanse, you will safely reduce caloric intake while providing your body key nutrients and supplements during distinct phases. Although weight loss is usually a secondary goal of this cleanse, our clients experience the elimination of unwanted fat reserves far better than “traditional” dieting and return to a healthy body composition. Our protocol is designed to last approximately 4 weeks; however, your body will ultimately drive the timeline. Is it hard? Absolutely not! Is it challenging? Of course it is,

because you're temporarily shifting from your normal routine. However, your sense of vitality – both during and after your cleanse – will be undeniable!

## **THE FOUR PHASES - RECLAIMING YOUR VITALITY!**

Each phase builds on the previous phase with synergy and purpose.

### ***Phase 1: Lymph, Blood, and Tissue Cleansing***

This phase begins the clean up work. Your intestines are flushed out, your blood and lymph systems are cleaned, and large volumes of mucous containing materials are expelled from your body. This is accomplished with a specially designed salt-water flush.

### ***Phase 2: Metabolic Cleansing and Re-Balancing***

This phase eliminates toxins stored at the cellular level, chelates toxic heavy metals from your blood and cells, and regenerates the healthy microbiome in your gut.

### ***Phase 3: Reducing Inflammation***

Inflammation is your body's response to what it perceives as an invasion from outside intruders. Your body mistakenly attacks its own healthy tissues because it misperceives them as a threat. During this phase you will take supplements designed to support your immune system and create conditions in your body so "mistaken identity" is minimized or even eliminated.

### ***Phase 4: Regeneration and Repair***

Free of its toxic load, your body will start to repair and regenerate damaged tissues and organs. To do this it needs to re-create the proper spectrum of microbiota, both inside and outside of your cells. Oxygen metabolism replaces glycolysis. Improperly built protein chains are torn apart, tissues are rebuilt.

## ***Ending Your Cleanse***

Your body will let you know when it is cleansed, rebuilt, rebalanced, and ready to resume eating. You will notice a significant shift from how your body felt during the previous weeks when it was taking full advantage of metabolic rebalancing.

## **NUTRITIONAL SUPPLEMENTATION**

Your body will safely and quickly rid itself of toxins with support from the nutraceutical supplements (pharmaceutical-grade nutrients) we deliberately select for your customized protocol. Our nutraceuticals are independently tested to guarantee purity and potency. We design your cleanse protocol to your individual needs by completing a body chemistry analysis. Based on the results, we tailor your protocol with specific supplements to boost immunity, quell inflammation, and “push out” heavy metals and synthetic chemicals – all while minimizing typical symptoms such as headache, fever, or nausea.

## **REVITALIGHT™ PROGRAM COST \***

During the 4-6 weeks of your personalized protocol, the cost of your program will be partially offset by expensive grocery and dining expenditures. Expect to spend around \$200 - \$300 for nutrition in the form of organic lemonade, bone broth, and Dream Crème during your cleanse. In addition, the cost for our services include:

Body Chemistry & Health Assessment and Customized Protocol Design with Continuous Advisor Support:	\$500
Pharmaceutical-grade supplements*:	\$1,500 - \$2,500
*4-6 week supply – specific items based on customized protocol design	

If you are like most people, for less than \$2,000, this ReVitaLight™ Program will be the most powerful medicine you have ever encountered. As long as you follow it faithfully you will achieve a level of health and wellness you may have never thought possible. We look forward to working with you.

\* Program cost may vary slightly based on customized nutraceutical requirements
